

To Whom it May Concern,

It is our office policy that we do not accept Transfer of Care without an evaluation to determine if our physician has a treatment plan to offer. The physicians at Golden State Orthopedics & Spine ["GSOS"] are specialists/surgeons with specific expertise. They are happy to provide a second opinion/one time evaluation in their preferred scope of orthopedics. If surgery is indicated, we are happy to provide PTP duties for that surgery and recovery. We do not accept general TOC requests especially for long term pain management or maintenance patients. If you would like your client/injured worker to have a surgical/treatment evaluation consult, we are happy to provide that once the appropriate authorization is received.

Please fax or email your authorization, medical records and patient demographics to our dedicated Workers' Compensation Department at the contact information shown below.

Thank you,

The GSOS Workers' Compensation Department
